

Blank Card Reader Cards

Models 1100BC (single sided)
and 1200BC (double sided)

1. Single-sided cards (1100BC)
 2. Double-sided cards (1200BV)
- Vocal mirroring capability with additional card programs and teacher created lessons with single/ double-sided blank cards.
 - Provides vocal mirroring capabilities when used with a CardMaster Card Reader. A card is selected and played through the CardMaster. The student listens to the pre-recorded sound, records a response, compares the two recordings and repeats as many times as necessary.
 - Optional blank cards allow creation of additional teacher created lessons and a permanent record of student progress
 - Reading and writing skills develop in a variety of ways, this program enables students to link visible letters with the sounds they hear. This repeated, multi-modal, kinesthetic, visual and auditory reinforcement helps solidify mental connections between written and spoken words

CardMaster Card Readers can enhance classroom curriculum, speech-language therapies, foreign language acquisition and ELD/ ESL applications. Recording onto these blank magnetic cards (single or double-sided) when using a CardReader creates a permanent record of progress. In addition to using prerecorded programs, teachers can create their own lesson plans.
