

# Model 1206i | iPad® Jackbox

Expand mobile-based learning activities with distributed audio to select students. This 1206i jackbox works with smartphones, tablets and computers (iOS and Android-based) for up to six students listening with connected headphones. It docks all 30-pin iPads®, iPhones®, iPods® and connects with other devices through its included Y-cord connected to the jack on its front.

## 1206i iPad® Jackbox Features

- 30-pin female connection on front for other devices
- Rugged ABS plastic casing for durability and school safety
- 30-pin connection acts as docking station for iPhone® (up to 4S), iPad® (up to 3), iPod® (up to 3)
- Master volume controls up / down
- Connects up to six headphones
- Light on front turns red when charging, green when finished
- Skid-resistant pads under each corner won't mar or scrape surface
- Silver-plated contacts help prevent "crackling" sound heard with other jackboxes when connecting
