

THE SIGHTS & SOUNDS
OF EDUCATION

Disposable Earcup Covers

Model 3060EC

These protective earpad covers are ideal accessories for headphones located in high-use school settings such as classroom listening centers, libraries, computer labs, and in ELL and ELD activities.

The earpad covers are made from 100% polyester fiber, so they are hypoallergenic and are also disposable. The earpad covers fully enclose the ear cushions of the headphone, helping to keep the headphone clean and improve hygiene. The earpad covers also help deflect perspiration in hot, humid conditions and will not affect the overall sound quality. Since students are no longer in direct contact with the vinyl ear cushions, many will find listening with the earpad covers to be more comfortable, and are more likely to stay on task.

These earcup covers are designed to be used with all of the Califone 3060 series and CA-2 headphones and can also be used with the 3064AV and 3064-USB headsets.

- * Flexible and comfortable
- * Available in multiple sizes to accommodate a variety of Califone headphones and headsets
