

Model **4805AV** | *Mic with Remote Start/Stop Switch*

The 4805AV Remote Microphone is ideal for school focused English Language Learning and English Language Development (monaural) applications. Its two differently sized plugs allow for connections and uses with different media players.

Attaching both plugs to multimedia player/recorders (2385-03, 2395AV-02, 2395IR) or cassette player / recorders (CAS1500 and CAS5272), enables the remote Start / Stop functionality. Connecting only one of the plugs allows recording, but not with remote operation. Its 6' cable and rugged ABS plastic casing (for durability) help it withstand the heaviest of school uses. PA11 and PA219 use a 1/4" plug Mono Adapter - not supplied.

4805AV Features

- Unidirectional mic with protective slotted cover
- On/off switch for remote operation
- 6' cable
- 3.5mm plug
- 2.5mm plug
- Reinforced flex points allow for bending without breakage
- One year warranty for school use - unlike microphones purchased from consumer electronics stores whose
