

THE SIGHTS & SOUNDS
OF EDUCATION

Desktop Computer Microphone

Model AX-12

Adding a microphone to any computer workstation enables students to work more efficiently performing keyboard and mouse operations during voice-recognition programs, recording audio files or interacting with testing and lesson plan software.

1. High-sensitivity mic ideal for language training and student testing
2. Lengthy 7' cord with 3.5mm connector will reach the back of any computer
3. Stable base assures mic won't walk or tip over
4. Adjustable, flexible 12" gooseneck boom
 - Provides the freedom to position the hands-free, high-sensitivity mic to best pick up a voice
 - Warranty for school use - unlike computer peripheral products purchased from consumer electronics stores whose warranties would be voided if used in schools

"Project Intercept"

Please contact us immediately if you experience any questions or difficulties with your AX-12. Our "Project Intercept" customer service program will quickly repair or replace items under warranty. Simply contact us via phone or email warranty@califone.com.
