

Discovery Headset

Model DS-9V

CALIFONE® INTERNATIONAL LLC. | THE SOUNDS OF EDUCATION | 800-722-0500 | CALIFONE.COM

The professional-grade Discovery headset is unrivalled for its comfort and durability in classrooms and computer labs.

It's ideal for language learning, STEM activities and assessments. The built-in noise cancelling electret microphone is designed for voice recognition programs and conveniently pivots from the earcup alongside the headband when not in use.

One hallmark of the Discovery is its deep earcup cavities. Their depth coupled with its circumaural earcups, make for an exceptionally quiet and comfortable listening experience.

The dual 3.5mm plugs makes this mono Discovery ideal for connecting to older laptop and desktop computers.

The audio playback is calibrated to enhance the tonal range of the human voice, which is critical for language learning.

Compatible with older Chromebooks, laptops, desktops, & MACS. Click to read more.

3-Year Commercial Warranty

Covers use in schools, which is considered to be a commercial / industrial application. Warranties on headphones made for consumer uses are voided when used in schools. Click to read more.

Features

1. Rugged and adjustable ABS headstrap with "Comfort Sling" better distributes the weight for increased comfort
2. Noise-reducing circumaural earcups lower external noise so volume needn't as high for hearing safety and facilitates concentration on the task at hand
3. Volume control on earcup
4. Dual 3.5mm plugs
5. Replaceable 6' straight cord long enough to avoid accidental pull out and withstands 250,000 flexes
6. Noise-reducing electret mic pivots from earcup
7. Industry's deepest earcup cavity provides unmatched comfort

Specifications

Headphone	40mm Mylar, Ferrite Cobalt magnet
