

THE SIGHTS & SOUNDS
OF EDUCATION

Bluetooth® Smartphone & Tablet Peripheral Pack

Model KB4Pack

Typing on smartphones and tablets can be cumbersome. Thumb-typing maybe ok for social uses, but it's different when it comes to using them for educational purposes in class or during assessments.

This kit pairs three key accessories to take full advantage of the productivity offered by mobile devices. The KB4 Keyboard syncs with any Bluetooth-enabled equipment and provides full screen visibility by disabling the virtual keyboard. The stand props the device to an ergonomically correct angle while the award winning headphone streams audio.

iPad® not included

1. Fully adjustable TPT stand supports tablets (including Kindle Fire, Galaxy Tab, iPads), and smartphones
2. Best selling 3068AV headphone with comfort and durability. Its over-ear earcups reduce ambient noise, helping to minimize distractions and keep students more on task
3. Full-sized keys and spacing of the KB4 Keyboard for efficiency & ease of use. Wireless connectivity syncs with any Bluetooth-enabled iOS/Windows/Android smartphones and tablets
 - Warranty for school use - unlike items purchased at consumer electronics stores whose warranties would be voided if used in schools.

"Project Intercept"

Please contact us immediately if you experience any difficulties with your KB4Pack. Our "Project Intercept" customer service program will quickly repair or replace items under warranty. Simply contact us via phone or email warranty@califone.com.
