

# Non-Powered Whiteboard Array Speaker

## Model PI30-SP

1. Rugged fiberglass-reinforced ABS plastic
2. Protective steel grille
3. Spring-loaded wire clips for connecting with the audio source
4. Three transducers with high-energy neodymium magnets, which are twice as efficient as conventional ferrite magnets for more power from a smaller, lighter speaker (easier to install)

- \* Delivers superior sound amplification for up to 300 people from LCD projectors, computers, media players and other audio devices
- \* Designed for installation in classroom and meeting facilities

**This non-powered Whiteboard Speaker will enhance any technology-related presentation with its superior sound. The built-in array technology focuses the sound pattern directly at the audience for a clearer sounding message (other speakers deliver a wider dispersion pattern which bounces the sound off walls, contributing to an overall increase of the ambient noise level). The array technology also projects a more evenly balanced sound from the front of the room to the rear, ensuring students hear the content in a more even fashion.**

**“Project Intercept”**

Please contact us immediately if you experience any difficulties with your PI30-SP speaker. Our “Project Intercept” customer service program will quickly repair or replace items under warranty. Simply contact us via phone or email [warranty@califone.com](mailto:warranty@califone.com)

Visit our website at [www.califone.com](http://www.califone.com) to learn more about the complete line of *Califone*® audio enhancing and visual technology products including: Wired and Wireless public address systems and lecterns, wireless microphones, headphones & headsets, group listening centers, multimedia players and computer peripheral products.

*We are proud of helping teachers enhance student understanding and achievements since 1947, with your satisfaction as our first priority.*

The PI30-SP has a limited six-year warranty and service support available through authorized dealers nationwide. Its warranty covers school use - unlike some other PA products whose warranties would be voided if used in schools.
