

THE SIGHTS & SOUNDS
OF EDUCATION

Interactive Whiteboard

Model WB80

Help transform learning and engage students with this Interactive Whiteboard. The WB80 consists of software with an interconnected hardware frame that permanently attaches to a wall and connects to PCs with Windows operating systems. Using a series of built-in sensors around the perimeter, infrared technology triangulates & interprets writing or movements against the surface - eliminating the need for special pens or writing instruments.

1. Interconnecting corner and field sensors pieces
 2. Hardware accessories
 3. Male-Male and Female-Male USB extension cords
- One year warranty for school or business uses - unlike items purchased at consumer electronics stores whose warranty may be voided if used in these applications.

"Project Intercept"
