

Computer Microphone

Model AX-11

1. Adjustable 5" gooseneck boom provides the freedom to position the hands-free, high-sensitivity mic to best pick up a voice
 2. Lengthy 7' cord with 3.5mm connector will reach the back of any computer
 3. High-sensitivity mic ideal for language training and student testing
- Ideal for situations involving limited desk space, the AX-11 is mountable on top or side of monitor, or under a cabinet or shelf for convenient hands-free operation
 - Warranty for school use - unlike computer peripheral products purchased from consumer electronics stores whose warranties would be voided if used in schools

Adding a microphone to any computer workstation enables students to work more efficiently performing keyboard and mouse operations during voice-recognition programs, recording audio files or interacting with testing and lesson plan software.

"Project Intercept"
